

Jason G. Schomburg MPT

Jason Schomburg is a Physical Therapist at the NeuroSpine Center of Wisconsin. He has excellent results manually treating patients with orthopedic issues for over 15 years. His clientele consists of shoulder, hip, knee, foot and ankle pain. Specialized interests include treating clients with neck, low back and sacroiliac dysfunction. In July 2015 Jason became certified in Dry Needling which has become a great adjunct to his manual, hands-on approach. In fact, 70% of his clients receive Dry Needling. Jason is a 2000 graduate of the Masters in Physical Therapy program at Concordia University-WI. He has over 600 hours in continuing education, most of which has been geared toward treatment of spinal and pelvic disorders. In his free time, Jason is an avid golfer and runner. He also enjoys watching his daughter play volleyball and son play basketball and run cross country.
